ORGANIZING TEAM.

Boys of Fort Douglas Will Play Football This Season.

ball This Season.

Great efforts are being put forth at Fort Douglas by the boys in biue to raise money to support a foothall team. It has always been the custom at the post to have a team to play in the university series, but so far the fort teams have not met with as much success as was expected by those interested and as a result, have broken up long before the season ended.

There seemed to be a lack of enthusiasm on the part of the players, probably caused by the absence of proper equipment in the line of head-goaring and other things necessary in the game. It is impossible to piny good ball with inferior equipments.

The boys are determined this season to overcome those difficulties and to organize a team that will be able to hold its own with any of the universities. The prospects for such an eleven seem very bright, as there are la large number of candidates now in the field sad plenty of others who will gladly join.

No couch has been chosen thus far, but there are several good men among the soldiers who, it is thought, will be able to acceptably fill that position. The meney question is the only thing that is nindering the consummation of the boys in blue, but it is thought that by the end of the week sufficient funds will be secured as to assure the success of the movement.

Iroquois Is Stranded. VICTORIA, B. C. Sept. 10.—The steamer Iroquois, a small steamer plying between Sidney and Nanalmo, stranded during the heavy fog last night off Beacon Hill within a short distance of Victoria harbor, whither she was bound for repairs. She is high and dry, caught on some boulders within fifty yards of the shore.

WIRELESS TELEGRAPHY NO LONGER EXPERIMENT

Actual Success on Pacific Coast; Low Expenses Reduce Rates to Minimum.

Wireless telegraphy has reached the point where it is a settled and positively successful business, remarked D. T Buccessful business," remarked D. T. Bentley, at the Culien hotel, Sunday, Mr. Bentley is from Los Angeles, and is in the city in the interests of a wireless company now doing business along the Pacific coast. Continuing Mr. Bentley sald. "No future experimenting is necessary to assure a general success in the wireless message business, we have the science down to the point where it is perfect and of general use. The company with which I am connected has the system now perfected along the Western coast, and communication from San Francisco to the Sandwich islands is possible.

Prices Reduced.

Prices Reduced. The prices have been reduced all the way from 20 to 55 per cent on cable grams alone. We expect soon to reach the boats as they plough their way across the Pacific ocean. In time the system will be general all through the United States and Canada. It is an economical process when compared with the methods now in yogue by wire.

Weather Never Interferes. "One-half horse-power is sufficient to reach 30 miles across mountains, valleys, water, snow or sieet. The weather conditions do not have any effect on the wireless, system. After two years of constant use along the Western coast not a single militake has been traceable to the wireless system. This is a record of which we are very proud."

Enthusiastic Over Los Angeles. Mr. Bentley will be here for several days. He is enthusiastic over the future of Los Angeles, and says that a man can multinly even a modest sum of money there in real estate in a very short time.

Important Convention.

Important Convention.

J. W. Adams, president of the association, said that this convention would be of great importance to the railreads, and that the digest of the proceedings will be presented to the American Association of General Passenger and Ticket Agents at their meeting to be held at the City of Mexico next month. At the Portland meeting, says President Adams, they will discuss the general features of their business in the hopes of improving men the passenger business everywhere. They will deliberare and discuss the various phases of their business, and make a reports of the results to their superiors. The object of their making such a long trip was to bring them into actual contact with the country and conditions through which they expect to send the people from their lines.

Importance of Salt Lake City.

Importance of Salt Lake City.

Said one of the party. "The importance of the Sait Lake Route to the city of Sait Lake is beyond comprehension at this early stage of its history. We were all new to the Sait Lake Route, but we must say that their roadbed and equipment are excellent. We were surprised at them. The dining car service was especially fine, and we wish to extend our thanks through your paper to the company and Mr. Anderson, who has charge of the dining car service, for their kind and courteous treatment on the way here. or the dining car service, for their kind, and counteous treatment on the way here, our money was counterfeit at all times, just as it is here in this city. We get on the care, end no one will accept our money. We get on the train to go to Saltair and no conductor came along to sell or collect tickets. We went up to the Saltair bathing office, and suits were poked out at us with a grin and no explanations. So it is everywhere here, we have invitations from the various clubs, and while we will try to accept them all let me tell you that we are tired, but having a most enjoyable time. After the first of next month the Salt Lake Route will be one of the principal tourists routes on the const. Through cars from Chicago will come through Salt Lake with stop-over privileges. This means a more immediate benefit to the city than any recent move in rallroad circles. It will bring people to Salt Lake who might not have gotten here otherwise."

Itinerary of Party.

Itinerary of Party. The itinerary of the party is as follows: From Los Angeles to Salt Lake, to Butte, to Spokane, to Dallas, to Fortland, to Seattle, to Tacoma, to Seattle, to Vincouver to Revelstoke, to Glacier, to Banff, to Sums, to Seattle, to Portland, to San Francisco, thence to Los Angeles.

Angeles.
The party breakfasted at the Kenyer esterday morning, went to Saltair at it and returned for function at the Kenyer it 12:30. At 1:30 they took the Seeing Salt they crowded as much fun as was possi-ble in so short a time and expressed themselves as highly pleased with their visit. They took the Oregon Short Line at 11:15 for Butte

PALATIAL SPECIAL TRAIN

Most Magnificent One Ever Run Out

of Chicago Starts October 7. What will probably be the most palatial special train ever to depart from Chicago will be that of the "Bankers" Special that will leave this city over the Rig Four railway at 11 a. m. October 7. The train will carry 500 preminent financial men of the country, delegates to the convention of the American Bankers' association, which meets in Washington, D. C., Optober 9.

which meets in washington, D. C., Optober 9.

The train will consist of ten of the
finest cars the Pullman company is able
to assemble. There will be four open
sixteen-section sleepers, two compartment electers, a buffet-library, an observation car and two of the Rig Four's
new dining cars.

In addition to the men porters there
will be negro maids and barbers. There
will be salt water for bathing, a turbine
electrical motor for operating the incandescent lamps without lar, a ticker service for receiving market reports on route
and probably a wireless telegraph apparatus.

d probably a wireless telegraph apratus. The train will arrive in Cincinnatt at
sclock the next morning and will dert for Old Point Comfort fifteen minres later, arriving at the famous old
slade resort at 3 o'clock in the afteron of the same day. The delegates will
to in the Hotel Chamberlain that evenrand will depart for Washington at 12
lock midnight on a special steamer of
